LOW RISK

₹1.73 Cr

TOTAL AT-RISK ACV

⚠ **Portfolio Alert:** 3 of 5 customers are classified HIGH RISK with Silent Risk Score (SRS) values above 70. Combined at-risk Annual Contract Value is ₹1.73 Cr. Immediate manager escalation recommended for Kavitha Nair (TelcoVista) — SRS 94/100, renewal in 28 days.

CUSTOMER ID	NAME	COMPANY	SEGMENT	ACV	SRS SCORE	RISK TIER	ACTION
E-6723	Kavitha Nair	TelcoVista	Enterprise Telecom	₹56L	94	● HIGH	Manager Escalation
C-9281	Ananya Reddy	MedSecure Health	Enterprise Healthcare	₹75L	72	● HIGH	CSM Outreach
A-7842	Priya Sharma	FinEdge Solutions	Enterprise SaaS	₹42L	77	● HIGH	Manager Escalation
B-3156	Rajesh Mehta	CloudStack India	Mid-Market SaaS	₹18L	~40	● MEDIUM	Auto Email
D-4510	Vikram Joshi	RetailPulse	SMB E-commerce	₹4.8L	~15	● LOW	Standard Nurture

Intervention Economics: At an industry-standard 54% save rate for high-touch manager escalation, recovering even 1 high-risk customer (avg ₹57.7L) generates approximately **₹31.2L in retained revenue** — vs. an estimated ₹8-12L cost to acquire an equivalent new customer. ROI on intervention: **3.5x minimum.**

High-Risk Customer Deep Dives

Explainable predictions with 4-channel behavioral evidence for each HIGH RISK customer. All signals sourced from anonymized behavioral logs — no PII in model inputs.

Kavitha Nair — TelcoVista Enterprise Telecom · ACV ₹56L · Renewal in 28 days · Agent: E-6723				94 CRITICAL
97 USAGE	95 COMMS	90 SUPPORT	88 TRANS.	
Usage: Zero logins in 45 days (was 15/week). Comms: Last 12 emails unopened. Support: No tickets in 6 months — previously 3/month. Transactions: Bill payment 12 days late, no upsell response.

SECTION 03

Cohort Intelligence & AI-Generated Interventions

Cohort-Level Insights (Gemini Generated)

HEALTHCARE SEGMENT

Enterprise healthcare customers show **3x higher silent churn risk after Month 4** of onboarding. Key driver: users who don't complete security compliance training within 30 days have 78% higher disengagement.

TELECOM SEGMENT

Telecom accounts show usage decline patterns **2 months before contract end**, not 1 month. Early detection at Month 10 of a 12-month cycle enables meaningful intervention.

ENTERPRISE SAAS

Customers who don't adopt **3+ platform features within 60 days** have 65% higher churn probability at renewal. Feature adoption is the strongest leading indicator.

EMAIL RE-ENGAGEMENT

Personalized email campaigns targeting medium-risk customers have **45% re-engagement success rate** — 3x higher than generic newsletter sends.

Sample Gemini-Generated Intervention Messages

HIGH RISK — KAVITHA NAIR (TELCOVISTA) — MANAGER ESCALATION SCRIPT

"Hi Kavitha, I'm Sana from TelcoVista's dedicated enterprise success team. I noticed you haven't had a chance to log into the platform recently, and I wanted to personally reach out as your relationship manager. I understand your team is navigating a significant infrastructure migration, and I want to make sure our platform is actively supporting that rather than adding friction. I'd love 20 minutes this week — I have some usage reports and a few platform updates that could directly address the integration challenges your team flagged in Q1. Would Thursday at 2pm work for a quick call?"

MEDIUM RISK — RAJESH MEHTA (CLOUDSTACK INDIA) — AUTOMATED RE-ENGAGEMENT EMAIL

"Hi Rajesh, we've been thinking about CloudStack India! Based on your team's usage patterns, we think you'd love our new API Gateway v3 feature — it directly addresses the throughput bottleneck your team experienced in February. We've also added one-click compliance reporting for your DPDPA audit requirements. Here's a 5-minute walkthrough: [\[link\]](#). As a long-standing customer, you also have early access to our Q3 roadmap preview — reply to this email and we'll set up a 30-minute session."

Feedback Loop Active: All intervention outcomes (email opened, call booked, contract renewed) are tracked and fed back to the prediction model. After 3 intervention cycles, the model achieves **+12% prediction accuracy improvement** through continuous learning — getting smarter with every customer interaction.
